

particularly because of the threatening possibility of intervention.

**THINKS IT ENCOURAGING.**

**BUT HAS NOTHING TO SAY**

Secretary Bryan, when asked about this tonight, smiled and said:

"That is encouraging, but there is nothing I can say about it."

Similar reports, it has been learned, reached Constitutionalists several days ago, but it was pointed out that June 12 was before General Villa renewed his activity in the field against Huerta and before differences with Carranza had been, to some extent at least, adjusted.

#### SECRETARY TO CARRANZA OPPOSES CONFERENCE

New Orleans, June 23.—The latest mediation party—that of having Huerta and Carranza delegates confer informally on a Provisional President for Mexico—will come to naught if Alfredo Breceda, secretary for General Carranza and his emissary to Washington, voiced the sentiment of the Constitutionalists here today. Mr. Breceda said that Constitutionalists would not confer with Huerta delegates, formally or informally.

Mr. Breceda said he expected to leave for Washington to-night to perform a very important mission for Carranza, but would not intimate what it was. His departure, however, was delayed, he said, because he received word late today that a messenger from Carranza wished to meet him here. He expected to leave to-morrow morning.

Fernando Telesas Calderon, head of the Liberal party in Mexico, arrived at the same time as Mr. Breceda, but it developed to-night that their arrival was only a coincidence. Although Calderon comes direct from Carranza and Breceda said to-day that they work to the same ends in Washington, the former said he was going to Washington on his own initiative and as head of the Liberal party. He said to-night that it probably would be several days before he left for Washington.

#### NO SECRET MISSION IN WASHINGTON

Mr. Calderon emphasized the fact that while he recently had been in conference with Carranza that he did not represent him on this trip, and that he had no secret mission in Washington. "I merely want to acquaint Washington officials with facts concerning Mexico, which I do not think United States officials know," he said. "I hope to see President Wilson and Secretary Bryan, but I have no assurance that I will."

It was considered significant that Juan P. Uruqui met the Mexicans here today. Soon after his arrival from Washington, Mr. Uruqui went into conference with Mr. Breceda, and later still he extended talk with Calderon. What information he gave them is not known. He said he came to New Orleans on a mission other than to confer with Calderon and Breceda, and that he would leave here probably to-morrow. He said he would not go to Mexico on this trip. He refused to state his destination or the object of his trip.

#### SMALL DIFFERENCES WILL BE ARRANGED

Salt Lake, June 23.—(via Laredo, Tex., June 23).—That all reports of "alarming, armed and deep division" between General Carranza and General Villa are false, and that the small differences between them will be arranged with the highest patriotism by both sides, was the main part of an unofficial statement given out here to-day at Carranza's headquarters. The statement, which was issued to the press of the United States in regard to the situation between Carranza and Villa, received the personal approval of General Carranza. The statement follows:

"You may assure the public of the truth of the matter regarding the alleged differences between Villa and myself. All the news published to alarm public opinion in the United States and elsewhere by stating that there have been alarming, armed and deep divisions between the forces of General Villa and myself are completely and absolutely false."

"The published report that General Carranza has precipitately fled from Saltillo and sought refuge along the American border, is likewise pure fiction."

"General Carranza is here in Saltillo surrounded by a group of distinguished and trusted followers, who have the interest of his campaign at heart and are in perfect harmony with him. Perfect tranquility prevails here."

"The powerful forces of Carranza, Villa and Pablo Gonzales, Oregon, Natera and others are united perfectly in spirit and action. Their collective aspirations are to obey unconditionally the orders of their illustrious and serious chief of State and military movements."

"All urgently desire, and the wish of the first chief of the Constitution is to create a grand, honorable and progressive nation that will forever exist in perfect harmony, and entertain the most gratifying and intimate relations with her illustrious neighbor to the North; Carranza's ambition is a civilization such as that of the nation governed by the Hon. Woodrow Wilson."

"The small differences between Villa and Carranza will be arranged with a patriotism which nothing nor any one can break, for all the chiefs of the Constitution possess an immense love of country superior to everything else, and will work to the end of creating a grand nation."

#### ONE SUPERDREADNOUGHT FOR TWO SMALLER SHIPS

(Continued From First Page.)

One of the two vessels would have a tendency to "preserve the peace" between the nations involved, and asserted that he knew of no protest against the sale being made by either country.

**DANIELS DESCRIBES TYPE OF NEW BATTLESHIP**

Secretary Daniels issued this statement to-night:

"This is a splendid thing for the navy, and I am naturally much gratified that the House concurred with the Senate in accepting the department's recommendation, and thus taking advantage of this unusual opportunity. In the stead of these two vessels, the navy will obtain a superdreadnought of the most advanced type, such as the Pennsylvania and not unequal to four vessels of the type of the Mississippi or Idaho."

"This ship will carry a main battery of twelve fourteen-inch guns, against the eight twelve-inch guns carried by the Mississippi and the Idaho combined. She will have a speed of 21 knots as compared with the maximum of 17.15 knots attained by the Mississippi and Idaho. Through the concentration of her big guns in four turrets and use of oil for fuel, she will require a crew of about 300 men, whereas each of the old ships required a crew of 700 men."

"Battleship No. 39 has not yet been named, and this year's naval appropriation bill authorizes the construction of two new battleships, which, with this new ship, will total four unchristened naval leviathans. Therefore, on this coming Fourth of July, Uncle Sam will have the pleasing paternal duty of choosing names for his first set of quadruplets."

"Final action on the appropriation bill will be taken in the Senate to-morrow on Thursday, and the measure will be sent to the President. As soon thereafter, as possible, representatives of the Newport News Ship-Building Company and Bethlehem Steel Company, in conjunction with the navy department, will call at the Navy Department and hand to Secretary Daniels a certified check for about \$12,000,000 the price agreed upon."

"The Mississippi is at Pensacola Navy-Yard, and it will simply be necessary to unload from her the supplies and personal property of the officers and enlisted men, and place her in the hands of officers and crew to be provided by the Newport News company, to take her to Athens. The Idaho is at Gibraltar with a number of midshipmen aboard on their summer cruise from the Naval Academy. Though no definite arrangements have been made, it is believed the boys will be transferred with the ship's company to the battleships Illinois and Missouri, also in the Mediterranean, and the Idaho will be turned over to a Greek crew."

"The Turkish ambassador, Rustem Bey, who protested to the President yesterday that acquisition of the American ships would unduly enlarge the naval power of Turkey's rival, would not discuss the matter to-day, though it was evident he was surprised at the action of the House."

#### VIOLENCE BREAKS OUT IN STRUGGLE AT BUTTE

(Continued From First Page.)

under control, but this message scarcely had been sent before dynamite was set off under the union headquarters. Many insurgent miners went to the tops of near-by buildings directly after they were first repulsed and opened fire on the deputies. The officers retreated for a time to the inner rooms of the building, then sallied to a window, fired on the besiegers and retired. This warfare in the darkness between houseposts and windows did not last long, the miners scattering to obtain dynamite.

#### PERSISTENT IN EFFORT TO BLOW UP BUILDING

The revolting members of the Miners' Union were persistent in their endeavors to blow up union headquarters. The first charge of dynamite having failed to destroy the building, a second and a third mine were exploded, having been planted while the deputies were chasing dynamiters from some part of the structure. The third explosion blew out the front of the building which had been denuded and looted during the first outbreak more than a week ago.

President M. McDonald, of the newly organized union, finding that he could not control the men in their attacks, had thousands of handbills printed hurriedly, and distributed about the streets, calling on all in the name of the union to disperse and go home.

#### WARNING GIVEN TO HAITI BY FRANCE AND GERMANY

Will Seize Custom-Houses Unless Arrangements to Meet Outstanding Obligations Are Made.

Washington, June 23.—News has reached Washington from unofficial sources that France and Germany have warned Haiti that their custom-houses will be seized unless arrangements are made to meet outstanding Haitian financial obligations. Secretary Bryan said to-day that no notice that such a step was contemplated had come to the United States from the European powers, but that the serious situation in the island republic, torn within by revolution and besieged by creditors from without, was the subject of a long discussion at to-day's Cabinet meeting. What the attitude of the United States might be was not indicated. Officials pointed out, however, that there was no treaty or arrangement under which the United States might assume charge of Haiti's affairs, as it did in the case of Santo Domingo.

There are four American war vessels in Haiti waters, and the United States has a large force of marines on shore. The German cruiser Strassburg is in Dominican waters.

The Haitian minister here, Ulrich Duvalier, earnestly protested to-day that his country is not a defaulting debtor, and that stories of European intervention and the counterpart in reports in foreign newspapers that the United States is contemplating the same act.

#### PROMOTION FOR HARRIMAN

Son of Late "Railroad Wizard" to Become Vice-President of Union Pacific.

New York, June 23.—The first honors won as a railroad man by W. Averell Harriman, eldest son of the late E. H.
